

**PALM VILLAGE**  
RETIREMENT COMMUNITY

# Alzheimer's and Dementia **Memory Care**

**Palm Village is devoted to meeting the special needs of residents with Alzheimer's and dementia in a safe, caring, and secure environment.**

Our mission is to enhance the lives of those who make their home here and to give their family members assistance, assurance, and peace of mind. We want to help residents maintain their current level of functioning through social interaction with peers, and to affirm residents' dignity, identity, and self-esteem. Our staff takes time to learn the history of each new resident and foster a nurturing relationship. Through staff-planned activities, we strive to provide positive reinforcement to our residents.

**We serve residents who exhibit one or more of the following traits:**

- Cognitive decline
- Increased anxiety
- Disturbances in the sleep/wake cycle
- Wandering
- Difficulty with performing activities of daily living

Caring and kindness are constants in every level of care at Palm Village Retirement Community, but they take on a special meaning for everyone in our Assisted Living Memory Care and Wiebe Center.

# Two Levels of Memory Care

## 1 Assisted Living Memory Care

Memory loss can be progressive, so Palm Village has chosen to offer care with an Assisted Living Memory Care level for those who have been diagnosed with the early stages of dementia, including Alzheimer's.

Assisted Living Memory Care provides continuous care with staff on duty 24 hours, 7 days a week for our residents. Memory Care suites are private, with your furnishings, have a private bathroom and the benefit of a secure and structured setting. A dining room and a fenced outside courtyard – including a pathway to freely walk and enjoy time outdoors - is devoted to our residents. Our staff encourages activities to keep residents engaged and maintain their highest possible level of functioning along with interaction with other residents at Palm Village.

### Our services include:

- Large private suites with private bathrooms
- A secure and protective environment
- Individualized treatment programs with social outings, cognitive stimulation, and planned activities
- Community dining room
- Spiritual services
- Unrestricted visiting hours for family and friends
- Laundry and Housekeeping services
- Wheelchair accessibility

## 2 Wiebe Center Skilled Nursing Memory Care

Creating a supportive and comfortable environment for seniors with memory loss is essential to fostering a sense of well-being and self-esteem. Located within the Health Care Center, the Wiebe Center provides care for residents with memory loss, advanced Alzheimer's disease, and other forms of dementia. The Wiebe Center offers a comfortable living environment, a secure courtyard with walking paths, and a private dining room for its residents.

Wiebe Center provides staff on duty 24 hours, 7 days a week for our residents. We offer semi-private suites and a private suite that can be decorated with your furnishings, and residents benefit from the secure and structured setting.

Residents and families feel at home in the Wiebe Center, and staff is trained to guide families through the dementia process to provide each resident with individualized care.
